BOARD MEETING

The board meeting was called to order at 7pm. The following topics were discussed for presentation to the membership.

A plan for stocking the Hot Rod Café. We have secured a discount from Crocetti's market. Insurance reduction in cost for insurance. Porta Poti cost. Plaques and flyers, cyber insurance for credit and debit card use, also a startup cost estimate for the Hot Rod Café. There was a quorum, meeting was adjourned 7:30p

MEMBERS MEETING

President Ferron called the meeting to order at 7:30pm, a quorum of 18 members were present. After the pledge of allegiance and club prayer, the recording secretary and treasurers report was read. Both were approved by the membership. Topics discussed at the board meeting was presented to the membership. Our insurance company has agreed to sponsor this year's cruise nights giving us a deep discount in our premiums. We have to buy cyber insurance in order to use debit and credit cards. The insurance protects the membership in the event we are hacked or suffer a cyber attack. The costs for the Porta Poti's have increased for this year.

MEMBERS MEETING (CONT.)

The plan to set up and stock the Hot Rod Café, was discussed. The board urges the membership to sell sponsor plaques and sponsor ships to help off set the operating costs for this year's season. John Griffin suggested creating a sheet that could be handed out explaining plaques and sponsor ships including pricing. Chad Ferron volunteered, thanks Chad.

Plaques and sponsor ship costs were then discussed and approved.

Sadly John Ferron Sr. announced Fred Morrison's wife passed away.

Using the front row of the parking lot was discussed. This will free up more room and our cruise will be more visible to passersby. Some had the opinion was the front row was too close to the street attendees may not want to park there. This was tabled at least until the annual show.

Parking was also discussed. Buddy Hayden has heard concerns from attendees that they could not park where they wanted. Pros and cons were discussed. Directed parking is meant to make a maximize use of our space and better organize the parking spots. As in the past, if people want to park together, they can be accommodated.

John Ferron Sr suggested a sign saying spectators welcome should be displayed. The sign may bring in more spectators and help increase Hot Rod Café and T shirts sales. Could be a banner placed at the front of our lot advertising music, food and spectator's welcome.

Formalizing our by-laws and additional suggestions for by-laws was recommended. Tabled for later this year.

Meeting adjourned at 8:40 pm.

Our first cruise on April 13th was a success. The decision to except credit and debit cards worked well. The new D.J. energized the crowd, he even sold a sponsor ship. The weather defiantly was a contributing factor. It felt more like an August night rather than a typical April night. It was the first one I remember that we weren't freezing to death.

Waverley electric car manufactured from 1898 to 1915 in Indian.
